From *Blessed Earth* by Matthew Sleeth, MD

"The average US household consumes about twice as much water as the average home in Britain. There are a lot of simple changes you can make inside your home. For example, ...turning off the faucet while brushing your teeth or shaving can save a family of four about 48 gallons of water a day."

"Surely God is great... For He draws up the drops of water; He distills His mist in rain, which the skies pour down and drop upon mortals abundantly." Job 36: 26 – 28 NIV
